I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: I have ovarian Cancer and can not
take most Estrogens. To be able to
get an estrogen "type" medication has
made my life a great deal better.
So do not believe the FDA has the right to interfere
with my health and my decision to use this Rx
which is prescribed by my doctor. Please don't do this.
